Thousands Have Kidney Trouble and Never Suspect It.

Fill a bottle or common glass with water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Poughkeepsie, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Poughkeepsie, N. Y.

The Publisher's Claims Sustained

UNITED STATES COURT OF

The Publishers of Webster's International Dictionary allege that it is, in fact, the most complete and thoroughly re-edited dictionary, and vastly enriched in every particular, the purpose of adapting it to meet the needs and requirements of another generation.

We are of the opinion that this allegation is most clearly and accurately described, work that has been accomplished and result that has been reached. The Dictionary as it now stands, has been thoroughly edited in every detail, has been corrected every part, and is admirably adapted to the larger and severer requirements of the generation which demands more of philological knowledge than any generation that the world has ever contained.

It is perhaps needless to add that we to the dictionary in our judicial work, the highest authority in accuracy of definition; and that in the future as in the past will be the source of constant reference.
